**PART IV

OBJECTIVE SCORING CRITERIA**

**Lower Rio Grande Valley Development Council
2017/2018 Texas Community Development Program
Scoring Criteria**

Project Type/Priority – Total Points 95

1. Is the project categorized as a first priority, second priority, third or fourth RRC priority?
(Maximum 95 Points)

Methodology: Table 1 of the CD Application will be reviewed to determine the appropriate project priority type category for each activity identified.

Table 1 will then be reviewed to identify construction dollars per project priority type. The appropriate project priority type points will be assigned based on the percentage of construction dollars to the TxCDBG funds requested. The percentage is calculated by dividing the construction dollars per activity by the total TxCDBG funds requested. (Related acquisition costs are applied to the associated activity.) The following formula will be used: $\text{construction dollars per activity} / \text{total TxCDBG funds requested} = \text{percent construction dollars per activity to the TxCDBG funds requested}$. The percentage of the construction dollars per activity to the total TxCDBG dollars is then multiplied by the appropriate priority points and points are assigned.

Projects that include multiple priority levels, the percentage of the construction dollars per activity to the total TxCDBG dollars for each activity is multiplied by the appropriate priority points and the sum of the calculations determines the score.

Project Types:

- | | | |
|---|-----------------------------|-------------------------|
| 1. First Priority – Water & Sewer, Septic System & Yardlines
(Portion of line that goes from meter to the household) | 1. First Priority Projects | <u>95 Points</u> |
| 2. Second Priority – Housing Rehabilitation, Drainage, Street
& Fire Protection (Fire truck, fire house & equipment) | 2. Second Priority Projects | <u>85 Points</u> |
| 3. Third Priority - Community Centers, Parks &
Neighborhood Centers | 3. Third Priority Projects | <u>30 Points</u> |
| 4. Fourth Priority - All Other Projects | 4. Fourth Priority Projects | <u>10 Points</u> |

Cost Per Beneficiary (CPB) – Total Points 40

2. What is the cost per beneficiary for each applicant’s jurisdiction in comparison to the cost per beneficiary for all applicants? **(Maximum Points 40)**

Methodology: This score is determined by comparing the applicant’s cost per beneficiary (CPB) to the cost per beneficiary for all applicants. The calculation considers the difference in the applicant’s cost per beneficiary to the average cost per beneficiary for all applicants. The CPB is determined by dividing the total TxCDBG project amount by the total number of beneficiaries (Project Amount / Total Benes) covered by the project. The percent “% of CPB” is then determined by dividing the applicant’s project CPB by the sum of the CPB of all applicants (Cost Per Bene / Sum of Cost Per Benes). Next, using one (1) as a base value, subtract the % CPB from one to determine the Absolute Beneficiary Score (ABS CPB = 1 – “% of CPB”).

Finally, the ABS CPB can be used as a final score per applicant if using this scoring criteria as a tie breaker question only; or if this criteria is to be used as a weighted scoring criteria, multiply the ABS CPB by the total maximum score for this question to determine the final score for each applicant (ABS CPB * Total Points Available for this question).

EXAMPLE – Any applicants exceeding the total allowed points will be capped at the maximum points.

<i>Cost Per Beneficiary</i>	Maximum Total Points Available: 40
-----------------------------	---

Applicant	Project Amount	Total Benes	Cost Per Bene	% of CPB	ABS CPB	Tot Score
Applicant A	\$289,860	3,500	\$82.82	.0297	.9703	38.81
Applicant B	\$289,860	120	\$2415.5	.8663	.1337	5.34
Applicant C	\$289,860	1000	\$289.86	.1039	.8961	35.84

Sums	\$2,788.18 1.0000

Applicant’s Match Amount – Total Points 45

3. What is the applicant’s match amount? **(Maximum 45 points)**

Methodology: The applicant’s match percentage of the total CD Fund grant request is calculated by dividing the applicant’s match by the CD Fund grant request (applicant match/CD Fund grant request = applicant match percentage). Then points are assigned based on the appropriate scoring category.

- If the applicant’s match is 20% or more of the total grant 45 points
- If the applicant’s match is 15% but less than 20% of total grant 10 points
- If the applicant’s match is 10% but less than 15% of total grant 5 points
- If the applicant’s match is less than 10% of total grant 0 points
