**Subject:** RE: Residential Modifications

Good afternoon,  
Thank you for your interest in the contractor solicitation for direct purchase of services.

Residential modification is on a variable rate as it depends on the type of work being requested. The standard rate and AAA rate may not apply to residential modification because their costs are not standard. Interested entities may want to include their labor cost. Interested entities may also submit a sample cost for a grab bar and ramp, or similar common modification as an example.

Once again, thank you for your interest in the contractor solicitation for direct purchase of services.
