

BDR would like to submit the following question in regard to the referenced RFP:

1. **Q.** Section III of the requested submittal involves pricing. In many cases projects such as that being contracted for through this RFP are structured as “time & materials not-to-exceed.” Is that the requested pricing format of the LRGVDC for this engagement? Is the LRGVDC requesting a percentage of grant, firm fixed fee, or some other pricing structure?
A. LRGVDC is expecting a fee for the services not the cost for work to be done such as Repairs, leveling or any other work associated with the general contractor.

2. **Q.** In reference to Section III, would the LRGVDC like the price proposal divided into the 3 functional areas presented (General Administration, Planning, & Delivery)?
A. Yes.
