

ADDENDUM NO. 2

RFQ 2026-05

Architectural & Engineering (A&E) Services for Mobile Command Unit Shelter Facility - RFQ

Issued: June 12, 2026

The Lower Rio Grande Valley Development Council (LRGVDC), on behalf of the Rio Grande Valley 9-1-1 Emergency Communications District (RGV911), hereby issues this Addendum No. 2 to Request for Qualifications (RFQ) 2026-05.

Vendor Question #1

If known, when is this project expected to go to bid for contractors?

Response:

The anticipated construction bid date will be dependent upon the successful completion of the current RFQ process, selection of the most qualified Architectural and Engineering (A/E) firm, and completion of the design and permitting phases of the project. At this time, a specific construction solicitation date has not been established. The RFQ includes a projected project schedule for planning purposes; however, all anticipated time frames are subject to change based on project development, funding, permitting, and other factors that may affect the overall schedule.

Vendor Question #2

The last sheet of the Forms Packet was a landscaping proposal that is not listed in the submission outline. Should it be removed?

Response:

Yes. The landscaping proposal form is not part of RFQ 2026-05 and was inadvertently included in the original Forms Packet. Proposers should disregard and remove that form from their submissions. A revised Forms Packet has been issued and posted for use with this solicitation. Proposers are advised to utilize the revised Forms Packet when preparing and submitting their Statements of Qualifications (SOQs).

No Other Changes

Except as expressly modified by this Addendum No. 2, all other terms, conditions, requirements, specifications, and provisions of RFQ 2026-05 remain unchanged and in full force and effect.
