Hello,
Thank you for your interest in the ITB – Tires for Valley Metro Fleet.

The 22/32 tread depth, load range J will apply to only some of the tires listed in this ITB. For those tire sizes not manufactured or available to or in those specs, tire tread depth should reflect that as provided by the manufacturer's specifications when the tire is new.

For tire size 225/75R16 a steel-belted tire is being requested.

Once again, thank you for your interest in the ITB – Tires for Valley Metro Fleet.

Lower Rio Grande Valley Development Council
